

Features & Specifications

- High conversion efficiency of 22%
- Monocrystalline silicon cells for maximum output
- 400 W nominal power output
- Durable tempered glass with anti-reflective coating
- Lightweight aluminum frame for easy installation
- Operating temperature range: -40°C to 85°C

Specification	Value
Model	SolarFlare SF-400
Peak Power	400 W
Efficiency	22%
Dimensions	1.70 m x 1.00 m
Weight	19 kg
Warranty	25 Years

Benefits & Testimonials

- Superior energy yield even in low light conditions
- Resistant to hail, wind and extreme temperatures
- Easy integration with HelioCore battery storage
- Backed by industry-leading warranty and service
